1. Overview of operating results and others

(1) Overview of operating results for the period under review

During the six months ended September 30, 2025, the Japanese economy held to a trajectory of recovery attributable in part to effects of various policy measures amid improvement in the employment and income environment. In the construction industry, public investment remained firm and private-sector capital investment remained at a high level.

With regard to the outlook, there is significant appetite among companies for capital investments against the backdrop of strong corporate earnings and other factors, and this has coincided with demand from such drivers as the promotion of DX, and the need to address carbon neutrality. Accordingly, we expect private-sector capital investment to grow going forward.

Nevertheless, the risk of an economic downturn remains, with concerns about the impact of U.S. trade policies and the slowdown in Chinese economic growth being joined by the effects of the unstable situation in the Middle East. We must also continue to focus on such factors as the effect on the business environment of rising raw material prices and supply constraints.

Under these circumstances, the Group has set and is promoting the four basic policies of (1) taking on challenges in growing fields, (2) deepening existing businesses, (3) further expanding human resource investment, and (4) strengthening management infrastructure, such that they serve as initiatives for achieving sustained growth in partnership with its customers and society, while pursuing the targets of its Medium-term Management Plan 2027 (FY2023–FY2027). It has also worked on such initiatives as rolling out area strategies with an eye to the future, strengthening the value chain of the Group as a whole, promoting workstyle reforms, and ensuring safety and installation quality control.

For the consolidated financial results for the period under review, net sales decreased due to factors such as the decline following the completion of major solar power construction projects in the previous fiscal year, despite steady progress achieved with respect to indoor wiring work. In terms of profits, heightened project profitability and sale of cross-shareholdings led to an increase.

[Consolidated financial results]

Net sales	¥124,714 million	(down 1.7% year on year)
Operating profit	¥8,566 million	(up 32.5% year on year)
Ordinary profit	¥8,684 million	(up 47.3% year on year)
Profit attributable to owners of parent	¥7,216 million	(up 151.9% year on year)

(2) Overview of financial position for the period under review

(i) Assets, liabilities and net assets

Total assets at the end of the period under review were ¥296,048 million, a decrease of ¥14,512 million compared with the end of the previous fiscal year, mainly due to changes in current assets such as a decrease in notes receivable, accounts receivable from completed construction contracts and other (¥14,060 million) and an increase in costs on construction contracts in progress (¥1,578 million), and changes in non-current assets such as an increase in buildings and structures (¥2,083 million) and decreases in construction in progress (¥1,015 million) and investment securities (¥819 million).

Total liabilities were ¥155,763 million, a decrease of ¥18,116 million compared with the end of the previous fiscal year, mainly due to changes in current liabilities such as a decrease in notes payable, accounts payable for construction contracts and other (¥14,353 million), and changes in non-current liabilities such as a decrease in lease liabilities (¥3,635 million).

Net assets were ¥140,284 million, an increase of ¥3,603 million compared with the end of the previous fiscal year, mainly due to an increase in retained earnings (¥4,432 million).

(ii) Cash flows

The balance of cash and cash equivalents (“cash”) at the end of the period under review was ¥40,846 million, an increase of ¥547 million compared with the end of the previous fiscal year.

The status of cash flows and their contributing factors are as follows.

Net cash provided by operating activities was ¥9,154 million (¥7,448 million provided in the six months ended September 30, 2024), mainly due to profit before income taxes (¥10,840 million), depreciation (¥5,399 million), a decrease in trade receivables (¥13,554 million), a decrease in trade payables (¥12,832 million), and income taxes paid (¥3,094 million).

Net cash used in investing activities was ¥625 million (¥1,612 million used in the six months ended September 30, 2024), mainly due to proceeds from sale of investment securities (¥2,116 million) and purchase of property, plant and equipment (¥3,565 million).

Net cash used in financing activities was ¥7,992 million (¥9,231 million used in the six months ended September 30, 2024), mainly due to repayments of lease liabilities (¥4,112 million) and dividends paid (¥2,778 million).

(3) Explanation of consolidated financial results forecast and other forward-looking statements

The consolidated financial results forecasts for the fiscal year ending March 31, 2026 have been revised from the forecasts released on April 28, 2025, in light of recent trends in financial results. For details, please refer to the “Notice Concerning Difference Between Earnings Forecast and Actual Results for the Six Months Ended September 30, 2025 and Revision to Earnings Forecast for the Fiscal Year Ending March 31, 2026” released today.

For dividend forecasts, please refer to the “Notice Concerning Change in Dividend Policy, Dividends of Surplus (Interim Dividend), and Revision to Year-End Dividend Forecast (Dividend Increase)” released today.

(4) Notes to semi-annual consolidated financial statements

Notes on accounting treatment specific to the preparation of semi-annual consolidated financial statements

Calculation of tax expense

Tax expense is calculated by reasonably estimating the effective tax rate after applying tax effect accounting to profit before income taxes for the fiscal year including the six months ended September 30, 2025, and multiplying profit before income taxes by this estimated effective tax rate.

Notes when there are significant changes in amounts of equity

Not applicable.

Notes on premise of going concern

Not applicable.
